

Individual Development Account Program (IDA)- is a tool to help low income families build assets, gain financial independence, and to purchase a qualifying asset. Matched savings accounts can help people with modest means to save towards the purchase of a lifelong asset such as a home, automobile, secondary education, education for a minor or to start a business. Savings will be matched 2 to 1. Clients must attend a personal financial management workshop series and participate in asset-specific ownership preparation training. Maximum amount that can be saved is \$4,500 including the matching funds. Call to determine eligibility requirements.
